

Application Number: 09/854,314 (Brown et al.) ELAHEE 2614 Amnt. Contd.

CLAIMS: Please amend the claims according to the status designations in the following list, which contains all claims that were ever in the application, with the text of all active claims. If any claims are poorly written please help me rewrite them.

1. (currently amended) Email or Information alert devices comprised of:

- (a) an energy source means, local or remote;
- (b) communication means to a local or remote message source;
- (c) one or more sensible means to alert a person that a message has arrived;

whereby ~~for example only~~, one or a plural of such devices may be placed in various locations, or be carried by a person or be in or part of a vehicle and when a new email arrives to a connected computer or other message receiving apparatus, an appropriate signal is transmitted to the alert device(s), which then outputs one or more sensible alert(s). ~~as generally represented by Fig 1.~~

2. (currently amended) Email or Information alert devices as recited in claim 1, further comprised of one or more types of sensible display means to provide ~~one additional piece~~ of information associated with the message,

whereby ~~for example only~~, one or a plural of such devices may be placed in various locations, or be carried by a person or be in or part of a vehicle and when a new email arrives to a connected computer or other message receiving apparatus, appropriate signals are transmitted to the alert device(s), which then outputs one or more sensible alert(s) and also ~~provide one additional piece of displays the information via visual, audio, tactile or printing.~~ Information, such as the sender's identification, type of message, priority, times, dates, confirmations, advertisements, rewards, prizes, special offers, coupons, sporting events, electronic and other games and events, announcements, messages, articles, weather, traffic or other warnings, recalls, family, general, local, national and international news and
